Tim Rybicki

Web Developer

Proven performer in multiple IT roles set on efficiently delivering high quality web solutions.

⭐ Projects

10/2018   **BillTracker**
- Built with React, Express, MongoDB, and Node
- Users add monthly bills and track remaining balance

https://trybick.github.io/BillTracker-client/

10/2018   **WD News + Tips**
- A Jekyll-based blog I created for sharing web development resources
- Posts include command-line aliases and advanced Git tips

https://timrybicki.com/blog/

09/2018   **Bag of Holding**
- File Bucket site using Amazon S3 to store files and Express.js as an API
- Users store files and browse others' collections

https://optimal-salamanders.github.io/bag-of-holding-frontend/

08/2018   **Tic Tac Toe**
- Programmed game logic with creative spin in a single-page-app
- Used AJAX for API calls for authentication and stat tracking

https://trybick.github.io/tic-tac-toe-client/

💼 Experience
